

Route of the Hiawatha Season End

Lookout Pass Ski Area I-90 at the Idaho Montana state line

Lookout's summer operation, the Route of the Hiawatha mountain bike trail, has closed for the 2009 season.

We are pleased to report a record attendance of nearly 33,000 trail riders. A 14% increase over last year's record. New visitors from Norway, Luxembourg and Samoa were added to the international list of countries as word spreads about the Hiawatha Trail and it's scenic beauty with tunnels and trestles.

We wish to thank all our media partners for your support and promotion of this wonderful recreational opportunity.

Happy Trails!

Phil Edholm

President/CEO
